**CHIREC PRE-SCHOOL - KONDAPUR
NEWSLETTER**

Dear Parent,

We feel happy to share with you that all the children have very well settled in their new classes. This is evident in their bright smiles.

Congratulations to Pre-Primary team for making the transition so smooth and enjoyable.

You must be wondering about the topics we discussed last fortnight. We carried out various interesting activities for children to help them gear up for the new beginning. They got the special care and attention that they needed from their teachers.

The unique water play finally did take place last week and it ended with a splash! Children could barely contain their excitement and you can catch some of the precious moments on the school website. The colourful swimsuits and smiling faces made our splash pool come alive with a vibrancy of a rare sort. Some preferred to simply get their feet wet while others took no rest! A FAQ is, 'When can we have water play again?'

Morning assembly has been going on as usual and children get to sing many of their favourite rhymes and songs. They are also learning some new ones too.

Story sessions and puppet shows are a regular part of each class and both teachers and children are taking turns to present them.
